# AUTHENTICATION PROCESS

Pursuant to Florida Statute 320.086, authenticated license plates may be issued to any vehicle manufactured in 1974 or earlier and currently titled in the State of Florida. The license plate must be the same year as the model year of the car or truck. Authenticated license plates may only be issued to cars, motorcycles, and pickups weighing 5,000 pounds or less.

The license plate will be approved for issuance if it passes inspection and is still legible for law enforcement purposes. A county code or prefix does not have to match the residential county of the applicant.

The documentation listed below must be submitted by the applicant to the tax collector for review.

- The vehicle first must be titled in Florida in the name of the applicant
- A Florida license plate matching the year of manufacture of the vehicle
- A completed Request for Authentication
- Registration Fees (Usually $30-$60. Tax collector personnel will inform you of the exact fee upon approval.)

**Instructions:**

Drop off your authenticated license plate to a tax collector office with your completed Request for Authentication form. Be sure to write your name, email address, and a daytime phone number on the form. Tax collector personnel will contact you during business hours once the license plate has been reviewed.

**Important Information:**

Government license plates will not be approved for use.

Special use license plates (example: Seminole Indian, Amateur Radio, etc.) may require additional documentation and may or may not be authorized.

This service is intended to be a drop off/pick up service at our Downtown office located at 213 Palafox Place, Pensacola, FL. License plates mailed or shipped must be sent by a trackable method. The tax collector is not responsible for lost or damaged license plates or plates lost in transit. The tax collector will not return authenticated license plates by mail
